ROHADFOX CONSTRUCTION CONTROL SERVICES

Rohadfox Construction Control Services Corporation (**ROHADFOX**) is a professional services firm offering Construction Management, Program Management, and Engineering Design services. Founded in 1976, **ROHADFOX's** quality of work, integrity, and commitment has built decades-long relationships, maintaining a solid reputation as a leader in the industry serving the aviation, facilities, transit/transportation, and water and wastewater markets. **ROHADFOX** is headquartered in Atlanta, Georgia, with regional offices throughout the United States.

With over 40 years of industry experience, we apply a wealth of best practice knowledge to any project, giving us an advantage that directly benefits the success of our clients. Our project team works diligently with clients and design teams to analyze program and design alternatives and propose suggestions that provide value and reduce cost. **ROHADFOX's** success is firmly based on our commitment to completing every project on time and within budget, regardless of size and complexity.

In addition to design and construction support, we evaluate existing civil infrastructure utility systems to determine available capacity, reliability and maintenance requirements.

ROHADFOX At a Glance

Founded: 1976

President and CEO: Joy Rohadfox

Headquarters: Atlanta, GA

Area Offices:

- Atlanta, GA
- Columbia, SC
- Durham, NC
- Jacksonville, FL
- Memphis, TN
- Miami, FL
- Richmond, VA
- Washington, DC
- Los Angeles, CA

Markets:

- Aviation
- Facilities
- Transit/Transportation
- Water and Wastewater

OUR SERVICES

We believe our growing mix of industry experience, combined with the ability to gain insight from multiple disciplines, gives us an advantage that directly benefits the success of our clients. Our total capabilities include the broadest aspects of construction management, program management, and engineering design services.

Construction Management & Program Management

- Bid Analysis
- Bid Package Preparation
- Bidder Pre-qualification
- Contract Administration
- CAD Drafting and Design
- Capital Improvements
- CCTV Inspection
- Change Order Management
- Constructability Reviews
- Cost Estimating
- Cost Estimating Analysis
- Claim Analysis
- Commission Services
- Design Management
- Feasibility Studies
- Inspections
- MEP Inspections
- Logistic Services
- Operations
- Project Closeout
- Program Assessment
- Project Lifecycle Support
- Preliminary Design
- QA/QC Management
- Safety Management
- Scheduling
- Schedule Analysis
- Structural Analysis and Design
- Value Engineering

Engineering Design

- Agency Coordination
- Agency Permitting
- Civil Site Design
- Environmental Planning
- Erosion and Sediment Control
- Green Infrastructure Design
- Geotechnical Investigation
- Hydrologic & Hydraulic Analysis
- Infrastructure Evaluation/Design
- Utility Relocation Management
- Site Design/Feasibility
- Stormwater Permitting
- Streetscapes
- Stormwater Modeling
- Traffic Control Planning
- Water and Sewer Permitting
- Water Distribution Systems
- Water Resources Permitting
- Wastewater Collection Systems

AVIATION MARKET SECTOR

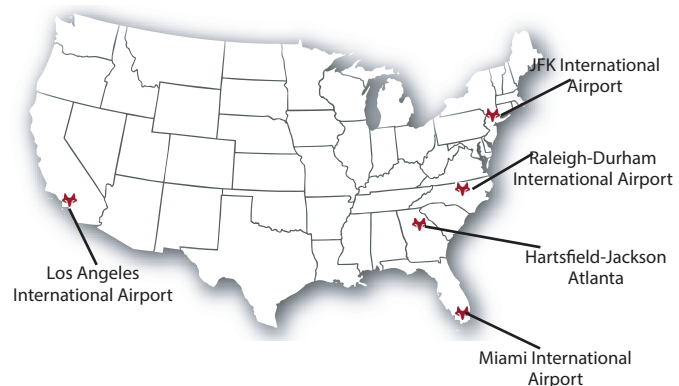

Airports are more than a place where travelers arrive and depart. They are an anchor for global connectivity and a magnet for investment. Our ROHADFOX team has formed strategic partnerships to provide program management and construction management services on various aviation projects at major airports across the country for over 40 years. We help our clients find lasting and cost-effective solutions to infrastructure challenges such as capacity restraints and aging facilities without disruption to service, making air transportation safer, easier, and faster for the traveling public.

Key Aviation Services

- Resident and Field Engineering
- Office Engineering
- QA/QC Management
- Civil and Electrical Inspection
- Scheduling and Analysis
- Cost Estimating and Analysis
- Change Order Management
- Contracts Management and Administration
- Safety Management and Accessibility
- Shop Drawing Review
- Constructability Reviews
- Construction Management
- Program Management

FACILITIES MARKET SECTOR

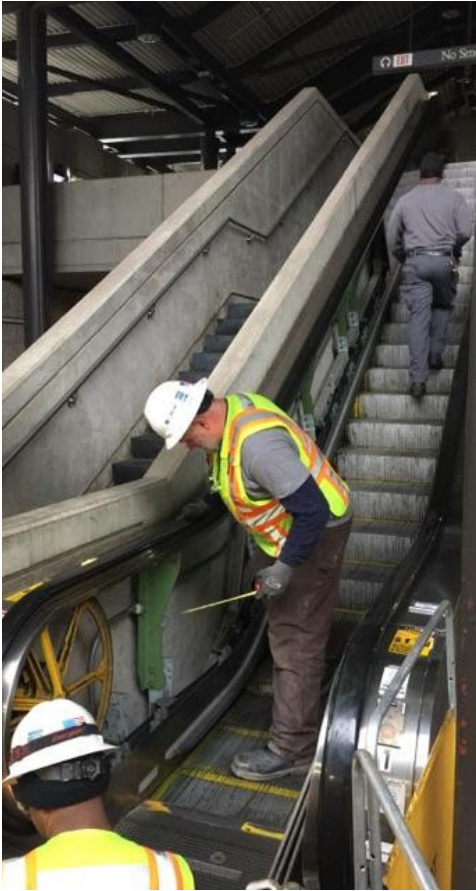

Transforming aging infrastructure requires an important investment. Public and private sectors are looking for sustainable and resilient infrastructures that will adapt to changing lifestyles. Rohadfox, offers a comprehensive range of Construction Management and Program Management services on facility repairs, renovations, and build-out projects delivered with special emphasis on providing personalization, consistency, and lasting value. Rohadfox has the ability and knowledge to assume control of projects as agents of the clients.

Key Facilities Services

- Construction Administration
- Program Management
- Commissioning
- Mechanical Engineering
- Construction Engineering and Inspection
- Owner's Representative
- Cost Estimating and Analysis

TRANSIT/TRANSPORTATION MARKET SECTOR

Planning and designing the preferred alternative from one location to another requires proven technical expertise, combined with an understanding of the physical and environmental constraints potentially impacting our clients and communities they serve. Rohadfox supplies engineering solutions to enhance the constructability, safety, efficiency, quality, and reliability of a multitude of transportation projects. Successful transportation implementation begins with effective transportation planning. Meeting the transportation planning and engineering needs of growing cities, countries, and states requires creative solutions.

Key Transit/Transportation Services

- Traffic Engineering
- Traffic Control Planning
- Asset Management
- Design Management
- Value Engineering
- Feasibility Studies
- Constructability Reviews
- Program Management
- CAD Designs
- Instrumentation and Controls
- Construction Management
- Cost Estimating Analysis
- Schedule Analysis
- Inspection & MEP Inspection
- Quality Assurance/Quality Control
- Structural Design and Analysis
- Change Order Management
- Commissioning Services
- Safety Management
- Contract Administration/Management
